

# How to print rosters for tournament!

## New NWOYSL Official Roster

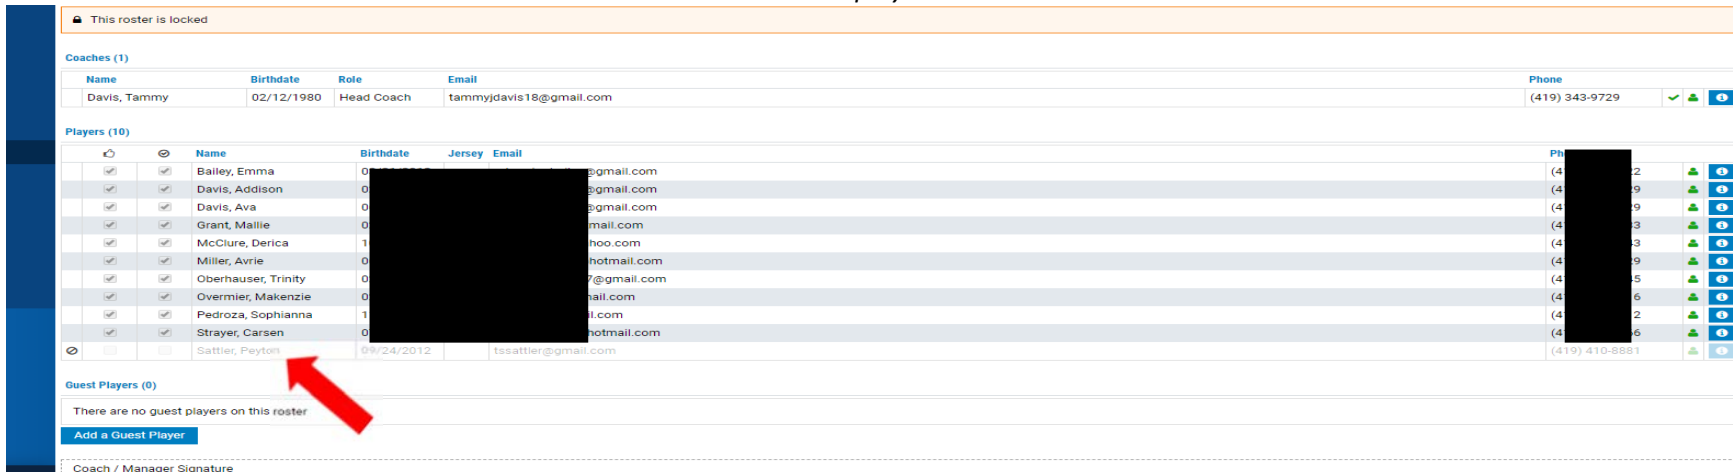

- Teams should click on "Manage Roster"

- Click "Print" located in the upper right to generate pdf

*If you have a player highlighted in WHITE like above, this player is not added to the league roster. You must contact the league for this player to be added to the league roster and appear on game day roster. Or if you have the below showing – this too means that the player is not on the league roster and is NOT a legal player in NWOYSL.*

**DO NOT GO HERE TO PRINT ROSTERS!**

- Please instruct your teams NOT to use the NWOYSL roster found here
- It was deleted at the state level; however, still caught up in the backend
- Stack is working to delete permanently
